Nena's true joy emerged when she was beside her handler, finding solace in their presence and drawing strength from their companionship. This sweet pup longs for a patient adopter who could see past her shyness and help her blossom into the confident, radiant soul she was meant to be. With lots of love and understanding, Nena would undoubtedly thrive in a home where she could finally feel safe and cherished. Please come to The Animal Foundation and request to meet her. Here's some more info about me:

Hi! Im Mowgli,

I'm an older seasoned gentleman who is looking to find my person to share the rest of my stories and adventures with. I like my treats and walks, as well as having a chill day to just relax. I like to be the center of attention. My perfect day is simply hanging out with you!

Mowgli recently went on a foster field trip! Here's what his foster has to say:

Mowgli is a wonderful dog to spend time with! After almost four months at the shelter this handsome guy smelled a lot of new smells at the park. Rolling in the springtime grass and checking out all the people, dogs and birds was an awesome way to pass the afternoon. Mowgli walks extremely well on the leash and had very good manners at the IN N OUT patio for a light doggy lunch. He then had his eye on a few toys during a trip to the pet store! He does like to ride shotgun in the car but I gently reminded him dogs should be safely secured in the back seat. He agreed and took a nap.

I am a 58 pound intact female black/white pit bull. I have been here for 53 days.

Here's some more info about me:

Roxy is a happy girl. Easy to leash and walked well on the leash. She likes to run after the ball and keep it! She makes a funny gremlin sound when she gets excited! If you want to hear the sound, please come meet with her. She is looking for her best human friend.

Roxy recently went on a Foster Field Trip, here's what her foster had to say:

"Roxy was a joy to hang out with. We started the day going to Nevada Ranch Tack & Feed to see what kind of goodies we could find. Roxy kept her attention on me as we navigated the store with all the tight spots and obstacles. She paid no mind to the chickens which were just inches away. Roxy was so excited when we got to the park but still walked nicely on the leash. Whenever she noticed another dog in the distance, Roxy would bark and wag her tail as if to say "Come over here. I want to play". Since it was her first outing, she was in no mood to sit. Roxy was on a mission to explore. In the car, Roxy was quiet, but a little nervous at first. However, by the end of our field trip, Roxy had already gained enough confidence to where she happily played co-pilot."

Here's some more info about me:

A volunteer took out this boy and here is what they said "What can I say about superman? There are not enough words. He is a super greeter, he wants to greet all people. He is a happy go lucky guy. He would make any frown turn upside down. He will shake your hand for as long as you want. He plays silly with the ball, makes you laugh and can't stop. He knows sit and shake. He was easy to leash in his kennel. When bouncing the ball he hops like a bunny." If you like what they had to say about Superman, then come down and meet him in person. I bet he will love you!
